COLLECTION

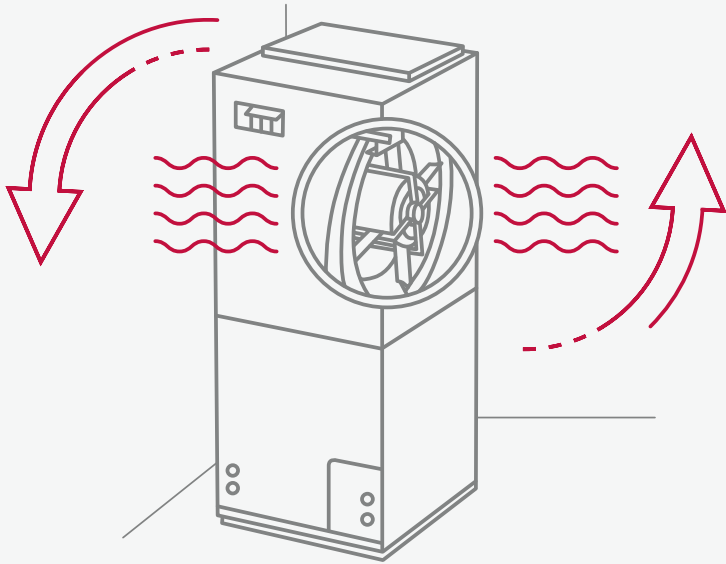

CBA38MV

MULTI-POSITION,
VARIABLE-SPEED
AIR HANDLER

The quietest and most efficient air handler you can buy.

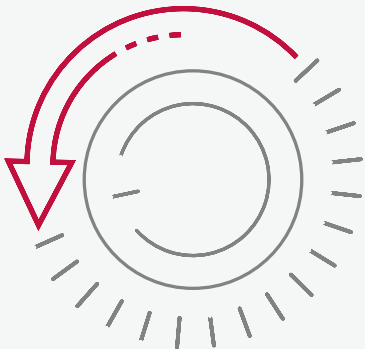

COMFORTABLE AT ANY SPEED

The variable speed motor in the CBA38MV knows exactly how hard it needs to work to keep you comfortable, speeding up and down accordingly. No wasted effort means no wasted energy—and lower utility bills.

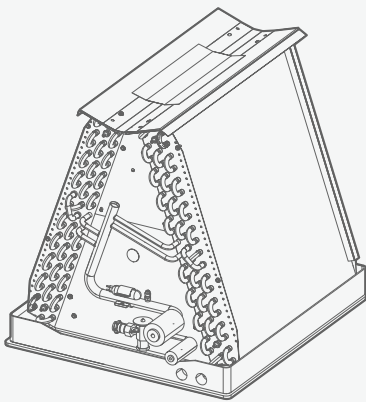

WHISPER QUIET

If you've ever heard the pitter patter of little feet padding down the hall, you have a pretty good idea of how quiet a well-insulated variable speed motor blower can be.

WORRY-FREE PERFORMANCE

It's doubtful "my air handler" is high on your list of worries. But if it is, the enhanced aluminum Quantum™ Coil evaporator coil in the CBA38MV is designed to resist corrosion in all types of environments for years of trouble-free operation.

LASTING DESIGN

We designed the CBA38MV to be as capable, reliable, and long-lasting as possible. Which is exactly what you should expect from a product that wears the Dave Lennox *Signature*® Collection badge.

PEACE-OF-MIND PROTECTION

The CBA38MV comes with a 10-year limited warranty on all covered components.**

*Based on sound pressure levels during operation of Lennox's CBA38MV-036 with factory-installed filter compared against 3-ton units of the leading competitors representing the majority of the total air handlers of like class sales volume in North America at equivalent external static pressure when set up per Section 4.5.3 of AHRI's 260-2001 test standard. Efficiency ratings (CFM/Watt) established per test standard: ANSI/AHRI 210/240-2008.

**Applies to residential applications only. See actual warranty certificate for details.

Note: Due to Lennox' ongoing commitment to quality, specifications and ratings are subject to change without notice.

Innovation never felt so good.®

PERFECTING INNOVATION

No environment is too tough for
efficient, dependable comfort.
