

LENNOX

CUSTOMIZED COMFORT

in up to four areas of your home, with a tap of your thermostat or phone

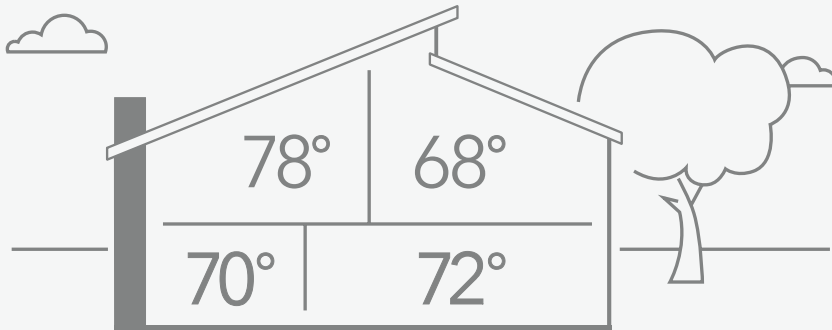

iHarmony®

FOUR-ZONE SYSTEM

Room to room, temperature control for Lennox® communicating equipment

AGREE TO DISAGREE ON TEMPERATURE

When iHarmony® zoning is installed in your home, every family member can have individualized temperature control for their own part of the home.

Zoning can be an ideal solution for your home if you have: large windows, a top floor that's usually warmer than lower floors, rooms you seldom use, family members with different temperature needs, high heating and cooling bills, or hot and cold spots.

COMFORT INNOVATIONS

OPTIMIZED AIRFLOW

Using a series of motorized dampers installed in your ductwork, the iHarmony zoning system can direct air through ducts to specific areas, while reducing airflow in others.

REMOTE ADJUSTMENT

When installed with an iComfort® S30 ultra smart thermostat, each area in an iHarmony zoning system (up to four) can be controlled individually via a smartphone app.

TEMPERATURE OVERRIDES

With just a touch, the schedule in each zone can be overridden to hold the temperature at a specific point.

YEAR-ROUND ENERGY SAVINGS

iHarmony zoning isn't just about customized comfort and precision. It can also help you use less energy every day.

ZONING CAN MEAN
ENERGY SAVINGS OF
UP TO **35%** when used with a
programmable thermostat*

EFFICIENCY INNOVATIONS

ENERGY-SAVING CONTROL

An iHarmony zoning system lets you reduce heating and cooling to unused rooms, so you don't waste energy conditioning air that nobody will feel.

EFFICIENT AIR CIRCULATION

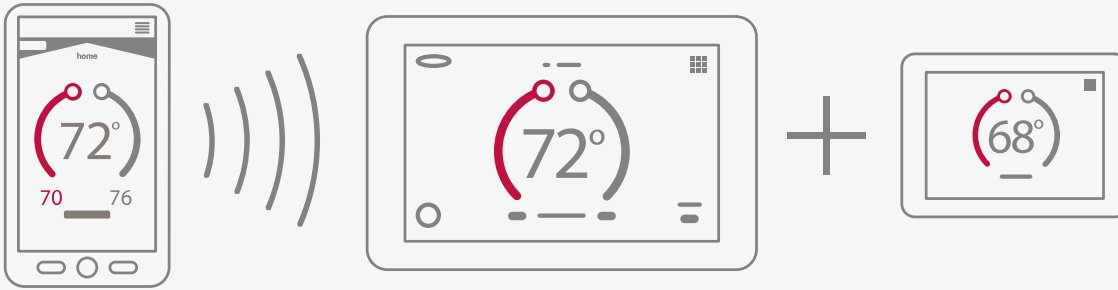

When a room doesn't need heating or cooling, it reduces fan speed to Circulate Mode—saving energy while still providing clean, filtered air to that room.

POWER SAVE MODE

When not in use, the thermostats in each zone turn off their displays to reduce energy use.

CONVENIENCE

Each zone in an iHarmony zoning system can have its own individual schedule, so your heating and cooling can more closely match your routine and your lifestyle. You can control the zones with an iComfort thermostat or in-zone thermostat. You can also adjust the temperature in any zone remotely with your smartphone, tablet or other web-enabled device.

PROVEN QUALITY

The iHarmony zoning system is built to exacting standards of quality to deliver years of trouble-free heating and cooling.

PEACE-OF-MIND PROTECTION

The iHarmony zoning system is backed by a 5-year limited warranty.**
